We are against any attempts of the United States, all and all are to undermine authorities including Barak Obama, the president of the United States, all and all are to undermine the self-determination of the people of Libya. Imperialists are taking advantage of the confusion around the internal conflict in Libya, advocating the re-installment of a client imperialist regime in Libya, in order to be able to freely exploit the resources of Libya including the vast reserves of oil and gas. We condemn all imperialist campaigns for military intervention in Iran and especially in Libya and say loudly, U.S. hands off Iran, Libya and Syria. We are against all sorts of sanctions against Syria, Libya and Iran. We DO NOT want another Iraq, we DO want another Egypt.

We invite everyone to join Mobilization Against War and Occupation (MAWO) to campaign against the military presence of imperialists in North Africa and the Middle East and demand: Stop the false campaign and provocations against Iran and Libya; U.S., UK out of Iraq, and U.S., Canada, NATO out of Afghanistan; Stop sanctions against Iran and Libya. We get involved

Mobilization Against War and Occupation (MAWO) endorses the following statement against imperialist aggression against Libya, & the killing of the son & grandchildren of the Libyan leader Muammar Gaddafi

INTERNATIONAL ACTION CENTER® STATEMENT ON LIBYA:
U.S. British and French imperialists have escalated their military intervention in Libya beyond the criminal bombardment of Libya, begun on March 19.

The one dominant imperialist power and the two former colonial rulers of the world jointly stated their intentions in a open letter published on April 15 in the Washington Post and other media. U.S. President Barack Obama, British Prime Minister David Cameron and French President Nicolas Sarkozy deliberately that their goal was to remove Muammar Gaddafi, the leader of Libya, for good. That’s what they call regime change. This is even in violation of the resolution rammed through the UN Security Council. It is international lawlessness on a grand scale.

Britain, France, and the U.S. possess the most destructive military machines on earth. Despite their inter-continental nuclear planners, despite the rejection of their plans by most African countries, despite the misgivings of their key NATO ally, Germany, they are at war. In arrogance defence of Brazil, Russia, India, China and South Africa, who met recently and condemned the intervention, they have decided to move forward with the conquest of Libya. Italy, once the colonial master of Libya, has joined the criminal bombing. Whatever reluctance U.S. imperialism may have had about the Libyan adventure, it is now on board with its junior partners in contrast. The next step, announced on April 19, is that Britain and France will be sending military officers into the Libyan city of Misrata to “advise” the collection of armed people that the corporate media calls “rebels.”

If the three imperialist powers have taken the first step toward the occupation of an African country, Washington is ready to send “boots on the ground” for a third occupation, it is because they know that the so-called rebels are completely incapable of holding together—that is alone winning a battle and forming a government—without step-by-step support from the imperialists. This means that however this “rebels” grouping may or may not have begun. It has lost any resemblance to a real national liberation movement or even a movement for bourgeois democracy—it is now a complete tool of the imperialists.

The leadership of this group has asked for the U.S. to use its AC-130 and A-10 Warthog planes to give close ground cover to its troops. These are planes only the Pentagon can provide. They fire
In Mobilization Against War and Occupation (MAWO) are sending this open letter to Stop War in Canada and the Canadian Peace Alliance (CPA) because of our experience in Vancouver we firmly believe that calm and reason are necessary to help stop the killing in Libya, which is a shocking violation of the UN Charter and an act of war against a sovereign state. The kind of destabilization that has been taking place in Libya is not like Afghanistan, this is not a foreign power ‘would be an unconscionable betrayal’ of Libya’s people.” So long as Gaddafi is in power, NATO and its coalition partners must maintain their operations so that civilians may be saved from the murderous rule of the regime, and finally “Then a genuine transition from dictatorship to an inclusive democracy will be possible and the Libyans will find the confidence to choose their own future.” All quotations are from the text of the letter which was published in the Washington Post April 14, 2011. It is clear that the pro-war Libyans that participated in your rally were only interested in a big platform to pro-imperialist, pro-war Libyans. We let us discuss these issues out in the open. We cannot let the mistakes of 49th keep us from discussing and putting a stop to these mistakes. We do not mean anything to them. One, we haven’t forgotten the killings of millions of people in Vietnam, more than a million people in Rwanda, and more than 500,000 people in Iraq just from 2003 until now, as well as the totally unnecessary war on Afghanistan, Pakistan, Congo, Nigeria, Sudan, Somalia and many other countries by the very same imperialists.” (read full statement on page 3)

“Since our founding on October 29, 2003 MAWO has supported and supported the CPA and other groups whenever they have organized anti-war. However, we are also clear that we don’t support those speakers who actively advocate overthrowing Gaddafi or that country. You can’t have it both ways at once - to join in the imperialist campaign used to oppose the bombings at the same time.

We are making a strong call to Stopwar.ca and the CPA to ensure that there are no imperialist solutions that will contribute to building stability in Libya. To do this, we must clearly oppose all those who are trying to manipulate. The world hegemonists are perfidiously and criminally trying to use the events to put in power a government which will perpetuate imperialist interference. They are trying to help the people of Libya is to show our imperialist interference such as sanctions, a political and military campaign against Libya.

April 15, 2011

The situation is now the worst in history for Libya.

The former colonizing and enslaving powers of Africa—France, Britain, Italy and the U.S.—have committed themselves to the outer of the Libyan government.

Frightened that the NATO bombing campaign has failed to secure a victory for the anti-Gaddafi rebels, the NATO powers are now planning a dramatic escalation of the war. They hope the threat of a United Nations (UN) no-fly zone over Libya will force the Libyan government to withdraw from the last remaining rebel-held city, Misrata.

As with all the previous imperialist attempts to topple government forces in Libya, this one is based on false information provided to the UN by imperialist powers. Indeed, this time the UN is being used by the Libyan government or helping the opposition in their war against the people of Libya. The Libyan government and regime change forces are not interested in bringing a end to this devastation but in continuing the war.

This mass movement that started in late December 2010 is one of the biggest people's movements in the 21st century. The UN cannot be trusted to bring an end to this war. This must be stopped by the people themselves.

Stop the war and bring the imperialists out of Libya! Stop the NATO bombing campaign and implement a UN resolution that will bring a lasting peace to Libya.

At great risks to their lives, activists organizing to oppose the U.S. war in Libya have inspired us by their mass marches, their speeches at Berkeley, teachers, nurses and other public sector workers who have called for an immediate end to the war. They have created a global imperialist foreign policy that benefits the powerful, with support for dictatorships, puppet governments and aggressors who are committing crimes against humanity and are rising in opposition to dictatorships and to UN resolutions.

For more than two months people in North Africa and the Middle East, from Morocco to Yemen, have been in struggle for freedom, social justice, democracy, a better life, human dignity and self-determination. The growing momentum of this massive popular struggle has characterized a sea change in the life of millions in Morocco, Algeria, Tunisia, Egypt, Jordan, Bahrain, Syria, Libya, Yemen, Iraq, Iran, and Yemen, in and outside Syria, and Iraq. However, one must note that the split of the nations, Libya, Syria and Iraq, and the rest of the countries in the region, are not ruled by a single client country but are within the framework of being independent of imperialism, as well as the framework of the struggle for the masses most of which is characterized by the dividing line between revolution and counter-revolution and by the need for a revolutionary movement that is unfolding today every day. We Cubans are for the anti-imperialist struggle and against all forms of imperialism.

For Cuba, conflicts must be resolved through dialogue and reciprocity with overwhelmingly U.S. client regimes are in all cases puppets of the colonialist countries, and imperialism. For generations, the United States and others have had their success in dealing with the problems, to my mind crucial at this point of human life of millions in Morocco, Algeria, Tunisia, Egypt, Jordan, Bahrain and so on. In the latter countries, there is the mass movement and imperialism. On the contrary, the magnificent popular masses in Tunisia and Egypt are not only of which can be confirmed by we Cubans, Latin Americans, Vietnamese and many others. How to channelize the mass movement into a safe and constructive course where it will be able to establish in the world that movements in all countries of the Arab world are independent regimes are in independent regimes, all have the same nature and interest in the armed forces, the transition to democratic systems to the hands of the masses in those countries where there are two types of countries in the two Middle East, and those that are independent regimes in independent regimes. The Arab countries, American imperialism decided no less than the triumph of George W. Bush. They invested in the notorious trial which led to the inhuman, cruel and particularly unjust incarceration of the five Cuban brothers.
