The war in Iraq has been a total disaster for the people of Iraq, the people of the entire Middle East and the people of the United States, especially soldiers and their families. The war has killed over a million Iraqis and 4,000 U.S. troops.

The cost of the war is now running over \$400 million a day. Military suppliers and contractors are reaping huge profits while people go without healthcare,

decent housing and jobs and while our roads, ferries and forests are crumbling.

On March 19, 2008 we encourage the community to mark this day in your neighborhoods, schools, workplaces and wherever and to come to an evening protest convergence at Westlake in downtown Seattle.
